Subject: Request for information on the availability of publications

Hello

I am currently developing a research project that will focus on macroinvertebrate biodiversity in small lakes and ponds in the southern tier region of New York State. I am very interested in the following publications to assist me in the development of my project. Are they available for loan or purchase to destinations in the USA?

I am returning to college after being in the work force for a number of years. I have led youths in macroinvertebrate study of ponds and streams and I wish to continue working in the field of environmental education.

Thank you for your assistance

Ed Engelman
