To: limnes@chebucto.ca  
Subject: OECD publication

To whom it may concern:

we are working on the derivation of trophic state from remote sensing data in Germany. In this frame we have often found the citation of the publication OECD (Vollenweider & Kerekes) (1982): Eutrophication of Waters. Monitoring, assessment and control. OECD, Paris.

However, we could never so far get the original paper. Could you provide us with a copy or tell us whom to ask for that?

Thank you for your help!  
Yours sincerely,  
Sabine Thiemann and Kerstin Ebert
